KENYON COLLEGE, GAMBIER, OHIO, APRIL 9, 1932

NO. 5

## ARCHAEOLOGIST IS LARWILL LECTURER

### Dr. David Robinson Gives Illustrated Talks On Ancient Greece

Two of the most interesting lectures heard at Kenyon in some time were delivered by Dr. David M. Robinson, Professor of Archaeology at Johns Hopkins University, Thursday and Friday evenings, March 17 and 18. Dr. Robinson's first lecture was on the Partheon, and was profusely illustrated by slides of the Acropolis, the Partheon itself, and details of the various statues and relief carvings in and on the building.

The Partheon has had an exciting history, as it has been changed by every race that has had control of it. The Turks, in particular, left their mark on it, as they very nearly destroyed it. Since then a great deal of that destruction has been repaired, but, of course, too much of the damage is permanent.

Dr. Robinson's remarks formed an excellent basis for the study of Greek Art, as he carefully explained the essential features of the sculpture of the Partheon that makes it the greatest building in the world with respect to sculpture and architecture, that is, the wonderful relief work to which the Ancient Greeks resorted to cover their lack of knowledge of perspective, in which no unimportant detail is emphasized, only those which are absolutely necessary to the general effect. He also made much of the fact that the Partheon is not designed with right angles and long straight lines, but that the columns lean a trifle toward the center, while the horizontal line of the floor rises a bit in the center.

The second evening's lecture dealt with Dr. Robinson's excavations at Olynthos, the city that Philip destroyed utterly in retaliation for losing the sight of an eye (Continued on Page Two)

## MAY 13-14 ARE DATES CHOSEN FOR MAY HOP

Morris Thompson, chairman of the Kenyon Assembly Dance Committee, announces that May 13 and May 14 are the dates selected for the May Hop. Some time ago it was thought that the event would occur one week earlier, but this was changed because it would have interfered with some students' plans of attending the Kentucky Derby.

As usual there will be two dances. The one on Friday evening will last from ten until five o'clock Saturday morning. The informal dance on Saturday evening is to be a three-hour affair, lasting from nine until twelve o'clock.

Although no orchestra has been secured as yet, the committee has been in touch with several managers. According to the chairman, a good band will be signed within the next two or three weeks.

## TENNIS SCHEDULE

April 23—Otterbein.  
April 26—Wooster.  
May 4—Oberlin.  
May 7—At Otterbein.  
May 11—Muskingum.  
May 17—At Wooster.  
May 20-21—Ohio Conference Tournament at Oberlin.  
May 24—At Capital.  
May 27—At Oberlin.

Matches will probably be scheduled with Kent State and Ashland, but definite arrangements have not yet been made. These will be announced later.

## POLITICAL SCIENCE CLUB HAS CONFERENCE

### MEMBERS GIVE VIEWS OF DIFFERENT NATIONS

The International Relations Club presented a Model Peace Conference in the Lounge of Peirce Hall, March 9. It was not intended to be an imitation of the conference being held in Geneva, as it was decided that in the real conference the nations were not likely enough to give the true state of affairs, but rather to more or less cloak their real aims under political intrigue. Therefore, at this Model Conference, the representatives of the various nations came out frankly with the actual position of their nation in modern politics, and exactly stated what each nation wanted from the conference. Nine of the most important nations were represented, and then two "plans" were presented, which, although differing in details, had as their aims giving "teeth" to the Kellogg Pact or the League. The audience decided by a narrow margin in favor of the first plan which was presented by Lee Waters. The losing plan was given by Donald Barrick.

Others taking part in this conference were: Charles Stires, Henry Dexter, Stephen Young III, Terry Sawyer, Albert Preston, Paul Elder, Robert Macdonald, Leete Hays, and Frank Mallett.

## CHASE IS SUBJECT OF FEATURE STORY

### CHASE CONTRACT WITH ACADEMY GIVEN HERE

An interesting sidelight on the days of Philander Chase, founder of Kenyon, is set forth in a feature story distributed by the Associated Press to its Ohio member-papers. Under the name of J. H. Galbraith, who compiles a daily article headed "Historic Ohio," the Columbus bureau of the news-gathering service recently said:

"In June, 1817, soon after he went to Worthington and became rector of St. John's Episcopal Church, the Rev. Philander Chase was elected head of the Worthington Academy.

"His contract was a curious one. A very particular feature of it, in these days when hard-and-fast stipulations are made as to compensation in such cases, was that he was to receive no fixed compensation. It was up to him to make it pay, for he was to have the tuition fees.

"The contract bears the date of June 5, 1817, and reads as follows:

"The trustees of the Worthington Academy, of the first part, propose and agree that Rev. Philander Chase, rector of St. John's church, should take charge of such Academy and have direction of the course of instruction and of all those who shall be employed as teachers, as well as of those who shall be received as students therein, and do appoint and empower the said Philander Chase to do so."

## STRING QUARTET TO BE IN GAMBIER APRIL 21

It has been unofficially announced that the string quartet of the Cleveland Symphony Orchestra will appear at Rosse Hall in a recital April 21. The concert is the gift of Frank Hadley Ginn, '90, of Cleveland, and is free to the public. Those who have heard this quartet in its other appearances here will look forward to this year's program.

## TRACK SCHEDULE

April 23—Practice meet at Oberlin with teams entered from several Northern Ohio colleges.

May 4—Triangular meet at Wooster with teams entered from Akron, Wooster, and Kenyon.

May 1—Dual meet at Otterbein.

May 14—Dual meet at Capital.

May 21—Bix Six meet at Wooster. Teams entered from the Ohio Conference schools.

## DR. RADFORD SPEAKS TO LITERARY SOCIETY

### NINE NEW MEN PRESENT TO HEAR PROFESSOR

Dr. Radford gave a delightful talk to members of Philomathesian Literary Society in the Lounges of Peirce Hall, Sunday evening, March 13. In his discussion of Our Debt to Roman Civilization the professor briefly compared and contrasted the educational, legal, religious, and moral aspects of the ancient and modern civilizations. Rome has not only given the moderns some ideas of its own, but it also has bridged the gap between the ages of the Greeks and that of the modern day. It is through Rome that we have learned so much of the Ancient Greeks.

Nine new men were present at the meeting, but these will not be initiated until later in the school year. Those to be initiated are:

George Blake, John Craine, Earl Engle, Charles Lippincott, Durand Maher, Frank Mallett, Morris Mason, Alfred Shorkey, and Leonard Swanson.

## KEEP OFF THE GRASS

The Senior Council requests that the students use the paths and refrain from walking on the grass. With the sod as soft as it is at the present time, trails are too easily made by students taking short cuts to classes, chapel, and the Commons.

## MORE HIGH SCHOOL DAY PLANS MADE

### Weaver Offers Prizes; Prominent Men Will Talk On Careers

More definite plans for the High School day, May 21, have been issued by the Registrar's office, and it is learned that there will be three features of the week-end, a "Choose-Your-Career Conference" for the high school Seniors, a prize for the Division entertaining the most high school Seniors, and a singing contest among the divisions on the Hill.

The Choose-Your-Career Conference will consist of speeches by men prominent in special fields and round-table discussion afterwards. According to a report from the Office, among the speakers expected are:

Medicine—Dr. Elliott Cutler, Lakeside Hospital, Cleveland, who was recently appointed successor to Dr. Harvey Cushing, head of Peter Bent Brigham Hospital, Boston.

Business—Alvan E. Duerr, '93, Director of Personnel, Manufacturers' Trust Co., New York, who is also the Chairman of the National Interfraternity Conference.

Advertising—Bennett Chapple, Vice-President of the American Rolling Mill Co., Middletown, Ohio.

Law—To be announced later. The singing contest is for a prize of \$25, offered by Mr. Robert Weaver, '12, of Cleveland, and is part of a movement to restore Kenyon's singing to its former plane. The tentative arrangements provide for each division to sing one of its own songs and one Kenyon song.

The other contest is one that will probably be of great interest to every division. A prize of \$50 is being offered by Mr. Weaver to the group that entertains the most high school Seniors at this time. It is suggested that the alumni, where ever they may be, look up any likely prospects in their locality, speak to the boys themselves, and get in touch with their chapters or the Registrar's office. The principal High Schools throughout the state are being given an opportunity to name delegates from their schools to be the guest of the college over the week-end.

## THREE MEN ELECTED TO PHI BETA KAPPA

One senior and two juniors were elected to the Ohio Beta Chapter of Phi Beta Kappa at a meeting of the society on March 21. John Pares Craine of Geneva was the only one from the class of '32 to receive this honor. Robert Bruce Hoffman, Cleveland Heights, and Myron Howland Westrich, Oak Park, Ill., were the two juniors who merited the distinction. Both of these are members of Alpha Delta Phi.

The initiation of these men in May will bring the number of undergraduate members to six.

## IS THE DEFERRED RUSHING SYSTEM A GOOD ONE?

At a recent meeting of the Pan-Hellenic Council the Kenyon rushing system was discussed, but no action was taken until the members had learned the opinion of the students.

There are two general types of rushing: deferred, under which no pledging is done until after a certain period of the school year has passed, and "cut-throat," which implies pledging at any time, before or after school has started. Each system has its advantages, but with the first of the two gaining support steadily among the universities and colleges.

In studying this problem, one must consider the benefits and faults of each method from the angles of the college, fraternity, and the entering student.

Let us first see the effects of the

two systems upon the administration of the college. Until 1926 pledging was done at any time and in any place, but in that year the Pan-Hellenic Council instituted the deferred plan of rushing.

It has been claimed by some that the instituting of this method has cut down the college enrollment because the students already here no longer take as active an interest in getting men to Kenyon as they did when the same men could be taken into fraternities without the bitter competition that is present today. If we are to look only at the freshman enrollments for a period of years, the logical conclusion is that the college has been hurt by the present method. But, although the first year class has dropped approximately twenty in number, the following year's has not differed by more than nine.

From statistics gathered at the Registrar's office, the entering class averaged 113 and the number who continued as sophomores 69, during three years previous to the adoption of the system. From then on the first year class has averaged 90 and the number continuing 60. Thus, out of 90 men entering, 60 have returned, but an additional 23 freshman students result in only 9 more sophomores. This seems to show that the college is now getting more select groups of men who are figuring on continuing their college careers. This is further backed up by the fact that the Class of 1931 had the largest number graduating in the history of the school.

The increase in tuition has not had a marked effect because there has been a general rise in initial fees in all colleges. The depression need (Continued on Page Two)

## The Kenyon Collegian

The Republican Publishing Co.  
Mt. Vernon, Ohio.

### RUSHING

(Continued from Page One)

not be considered because both classes have suffered somewhat from it.

The deferred rushing and pledging is advantageous to the fraternities because it gives them a chance to pledge good men that they would not have been acquainted with otherwise and it gives all the members of a chapter instead of one an opportunity to look over and judge the entering class. A member of a chapter may bring a man to school and see him pledged to another group. However, the fraternity is apt to gain more good men through the system than it will lose.

The present system has a decided advantage for the entering student, for it gives him ample opportunity to look over and learn something about the different fraternities and then make his choice. No longer is the freshman pledged by a student at the depot or before he ever sees Gambier. The entering man now has just as good a chance to judge as have the chapters.

No direct supervision of the freshman for the first month is a disadvantage because it is often that a bad start during that period results in difficulty the entire semester. The fraternities owe it to each other to help these men until pledging.

The Collegian, then, favors the deferred rushing and pledging system, but it advocates that the Kenyon students be more active in getting high school men to enter this school.

### ROBINSON LECTURE

(Continued from Page One)

when it was pierced by an enemy arrow. Traces of the lost city were discovered by Dr. Robinson about thirty years ago, and recently he returned with a party and excavated part of it, finding evidences of a great culture. He presented a collection of slides made at Olynthos which showed the remains of a number of old houses, built very much after the old Roman manner with a central court. The houses were roomy and well-built, and in all were found traces of bath-tubs, showing that we cannot consider the use of those foundations of cleanliness a modern innovation. In some cases there were even evidences of shower baths. Two cemeteries were uncovered and skeletons were discovered with coins upon them, showing that these people like many other ancients, had put coins in the mouths of the dead. These pieces of money had the head of Apollo on one side, and a lyre on the other. Vases, many of them in perfect shape, were often found beside the skeletons.

### BASEBALL

The announcement that there will be no baseball team this spring has been received with a great deal of dissatisfaction by members of the Kenyon student body. Why should so much time and money be devoted to track when Benson field is in such shape that no meets can be held at Gambier?

The diamond sport has been sponsored at Kenyon when other schools had refused to support such teams. But now that there is a renewed interest among Ohio schools in the old pastime, Kenyon is to strike it from its spring program. And the Kenyon interest in the game has not died out as can be seen by opinions of the student body upon the recent step taken by the athletic Department. Also two student teams are being organized to play during the spring.

The funds for the Athletic Department are low and not sufficient to support baseball. Before a Kenyon team could be put on the field, an entire new set of uniforms would have to be purchased, which, added to season's expenses, would be too great a sum for the department to handle.

However, the Collegian suggests that the assembly get behind a movement for a baseball team for 1932. Should it be found that more money is needed, let this sum be raised by contributions from the students. This would give them a chance to have their favorite sport and would add four or so spring contests to be played at Gambier.

### RADIO STATION IS NEARLY COMPLETED

#### MOST MODERN APPARATUS USED IN REMODELING

Within the next month the Physics Department will have completed the rebuilding of its amateur radio station W8EWR. The apparatus that has been in use for the past year has been gradually supplanted by that of more modern design, and the station will be entirely new as soon as the present remodeling is finished.

The old plant carried on two-way communication with New Zealand three times during the past winter, but regulations and heavier interference made the equipment somewhat obsolete and relatively inefficient.

The new transmitter will be of the crystal controlled type, similar to that used in the biggest broadcasting stations. The power, of course, will be much less, but the stability and quality will be the same. The crystal that controls the transmitter keeps the wave-length absolutely steady and does not allow the slightest changes. This type of broadcasting equipment is highly desirable where interference from other stations is heavy. In the amateur bands there are 20,000 stations crowded into a space about twice the size of the band used by the common broadcasting stations.

Even the receiver has been replaced by one of the most modern type. The new set has more than proved its worth already. Short-wave broadcast signals have been received with loudspeaker strength from all of the principal European stations in mid-afternoon.

Professor C. E. Cottrell remains in charge of the station as faculty adviser.

### DIVISION AVERAGES FOR LAST SEMESTER

For the benefit the numerous alumni subscribers of the Collegian, the college paper contains the scholarship results of the different divisions for the past semester. Below is printed the same report as posted by the Registrar's office:

	Number in Division	Division Average	Merit List
The College	200	2.53	44
1—Middle Hanna	17	2.32	6
2—Middle Kenyon	31	2.36	10
3—Middle Leonard	29	2.37	10
4—North Hanna	16	2.39	5
5—East Wing	28	2.49	6
6—West Wing	18	2.68	3
7—South Hanna	16	2.73	3
8—North Leonard	19	2.75	0
9—South Leonard	23	2.81	1

The Merit List consists of—Seniors 10; Juniors 13; Sophomores 10; Freshmen 11.

### EDUCATION IN ENGLAND DISCUSSED BY WHITTLE

#### Trinity College Man Speaks To Nu Pi Kappa

On Monday evening, March 7, the Rev. Dennis Whittle spoke to the members of Nu Pi Kappa and their guests, the faculty and the Philomathean Literary Society, on the subject of Trinity College and English University life. The speaker, who attended Trinity College and now lives in Delaware, Ohio, gave a brief sketch of the history of the English school. He punctuated his accounts of the early Halls, Houses, and Colleges with personal anecdotes.

Especially interesting was his account of the Commons life and living conditions. In the Trinity Commons the students are seated according to classes in three different groups—high table, graduates, and undergraduates. Each man has a suite of three rooms and two meals a day are eaten in them. At breakfast the men gather around the table to eat, and smoke their pipes.

Classes do not convene as early as they do in the American colleges and universities. The chapel is not compulsory. Each man has a tutor who looks after the conduct of his student and this tutor sees that chapel attendance is not neglected.

After giving a realistic picture of Cambridge atmosphere, vacations school spirit, and general attitude of the students, the Rev. Dennis Whittle answered questions pertaining to phases of English education not covered in his short talk.

### MORE ON BISHOP CHASE ARTICLE

### MUSICAL ART QUARTET GIVES FINE CONCERT

#### Four Stradivari Used by Organization

The third and last of this season's concerts sponsored by the Community Music Club of Mt. Vernon was held Monday evening, April 4, at the Memorial Theater. The Musical Art Quartet, consisting of Sascha Jacobsen, first violin; Paul Bernard, second violin; Louis Kaugman, viola; and Marie Roemset-Rosanoff, cello; presented a program of three parts, consisting of two fairly long quartets, three pieces of one movement each, and six encores. The first part, or group, was Haydn's Quartet in D Major, which was encoored with an Albeniz tango. The second group included numbers by Glazounok, Mendelssohn, and Bach, with Grieg's Cradle Song as an encore.

A Debussy Quartet, Opus Ten, made up the last group, with three encores, Nevin's Song of the Brook, Londonderry Air, and a berceuse. The whole program proved popular with the audience, who showed its appreciation by generous applause, especially for some of the numbers that included Mr. Jacobsen's fine solo playing.

No small part of the evening's enjoyment was a result of the instruments used by the members of the quartet, as all four are Stradivari, three of them, especially, being famous. The Quartet played without pomp or flourish, but showed by their perfect tone and exquisite, restrained technique that they were real masters.

### Have you thought of making DENTISTRY YOUR LIFE WORK?

THE Harvard University Dental School offers an unsurpassed course in this field of health service, with emphasis on medical correlations. A "Class A" school. Write for catalog.

'93 M—One of the articles in the first issue of Phi Beta Kappa's new quarterly, THE AMERICAN SCHOLAR, is of particular interest to Kenyon men, as it was written by Alvan E. Duerr, '93. Mr. Duerr, who is a member of Delta Tau Delta, and Chairman of the National Interfraternity Conference, wrote on "The Fraternity and Scholarship." Mr. Duerr states that the fraternity can be the greatest influence toward scholarship that we have in college, and describes briefly the work of the Interfraternity Conference, which now includes seventy-one national fraternities, toward increasing the standing of its members in scholarship as compared with the All Men's averages in colleges. In the last five years the percentage of schools where the group average of the fraternity men is greater than the All Men's average has risen from thirty to sixty. This wonderful work has not been the result of forcing or disciplining, but has come naturally because the Conference is gradually spreading the ideal that a good fraternity man is loyal to all his college stands for, which includes decent scholarship as well as other things.

'15 M—The Transfiguration Church of Buffalo was dedicated on March 13. It was mainly through the efforts of Rev. E. L. Tiffany, who has been rector of the church since May, 1928, that this work was done. From the start his rectorate was auspicious. The parish began to grow in a greater degree than expected and the desire for a church building proper coupled with the thought of opening the parish house to community activities culminated in the decision of the vestry to build a new church. Ground was broken on All Saints' Day, November 1, 1931.

Mr. Tiffany, after leaving Kenyon, graduated from Harvard University, completing his work at the General Theological Seminary, New York City.

'29—On March 17 Ken Stanley, who is now attending Bexley, was initiated into Lambda of Sigma Pi Fraternity. Following the initiation an informal supper was given for him in the South Hanna parlor.

'21—In the March issue of TAXGRAM, the Official Publication of the New Jersey Taxpayers Association, appears an article by Howard G. Fishback, '21, who is at present Director of the Atlantic City Survey Commission. Mr. Fishback's article deals with Atlantic City's very successful attempt to meet the depression with a tax cut of about 12%, which, combined with the saving effected last year, represents almost \$2,000,000 saved to the people of Atlantic City. Mr. Fishback states that this cut has been made possible largely thru the efforts of civic organization, and public officials, and points out that cooperation in such matters could save money for many a city and town.

The November number of PUBLIC MANAGEMENT also carries an article by this young Kenyon graduate, dealing with the state board of finance that controls the city of Fall River, Massachusetts.

'35—An announcement has been received of the birth of a daughter, Joyce Elizabeth, to the Rev. and Mrs. Stanley Meredith Fullwood. The daughter was born on the sixteenth of February.

'27—On March 29 in Baltimore, Maryland, the Rev. O. A. W. Brocklebank was married to Miss Sophie-Louis McLane.

'30—At a recent meeting of the Board of the Harvard Law Review, James M. Irvine, Jr., Altadena, Calif., was elected treasurer.

'29—An announcement has been received of the marriage of Joseph Walter Scherr to Mildred Paul Bushy at Harrisburg, Pennsylvania, on March 1.

## KNOX COUNTY ALUMNI HOLD ANNUAL BANQUET

The Knox County Alumni association of Kenyon College held its annual dinner and meeting in Peirce Hall, Wednesday evening, February 24. About forty were present including alumni from nearby cities outside of Knox county.

Dr. James A. Nelson, '98, Dr. R. D. Cahall, '08, and M. C. Kinney, '10, were reelected president, vice president, and secretary-treasurer respectively for the coming year.

The Rev. Louis J. Bailey and Dr. Nelson are to represent the local alumni association on the Alumni Council.

Very gratifying were the reports given by Dr. Nelson and the Rev. Mr. Bailey of the work done by the scholarship committee. Two \$300 scholarships were awarded by the association last year, the recipients being Alfred Shorkey and Leonard Swanson of Mt. Vernon. Records of these two for the first semester caused favorable comment from the donors.

Last year the association decided to provide a \$300 scholarship to the most worthy Knox County boy. However, late in the summer a second one was offered. So pleased was the group of men present that it was decided to use every endeavor to continue the practice started last year of providing two scholarships to assist two high school graduates through their first year at Kenyon.

## BEXLEY NOTES

The Rev. Dennis Whittle, pastor of St. Peter's Church, Delaware, was a Lenten speaker in St. Mary's Chapel. The Rev. Mr. Whittle made an inspiring talk on the subject of personal evangelism.

The Rev. Dr. C. Sturges Baly conducted the Three Hour Service on Good Friday in the Cathedral of the Incarnation, Baltimore, Maryland.

Among Easter Monday visitors at Bexley were the Rev. Messrs. Lane Barton, Flint, Mich.; Howard Harper, Cleveland; Luman Morgan, Hillsboro; S. Wilbur Plattenburg, Oxford; Frank Sant, Detroit; and Harold Zeiss, Steubenville.

The Rev. John D. Zimmerman, curate of St. Paul's Church, Akron, will be the week-end guest of the Rt. Rev. Warren L. Rogers, Bishop of Ohio, at "Kokosing."

The Rev. Stuart G. Cole, Bexley, '28, curate at St. Paul's Syracuse, has resigned to assume the rectorship of Trinity, Seneca, New York.

The Rev. and Mrs. J. Ethan Allen are the parents of a baby girl, born in February. The Rev. Mr. Allen is rector of St. Mary's, Mitchell, South Dakota.

The Rev. Dr. Sturges Ball has been appointed by the faculty of Yale University as committeeman for this area for the purpose of interviewing any students who might desire to attend Yale Divinity School.

Alumni and friends of Bexley are urged to send in news items to this column. E. W.

## BANNING WRITES OF LIFE AT CAMBRIDGE

Dr. Lord has just recently received a very interesting letter from Stanley Banning of last year's class who is studying at Cambridge, England. Here is a part of the letter describing student life at Cambridge.

"I often think of my happy days spent at Kenyon, of my friends, my studies, and the good times. It seems as if years have passed yet in reality it has only been months since I lived the life of a Kenyon student.

"At Cambridge the 'undergrad' is treated very differently. To begin with he wears a cap and gown after sun down and also when he goes to classes. He must be in his room four nights a week by ten o'clock and by midnight the other three. As a member of the Cambridge faculty said to me: 'We are not interested in how much work you do but in what time you go to bed.' The theory being, I suppose, that if a student is in his rooms he will study.

"To enforce university regulations there are about six or eight members of the faculty who parade the streets of Cambridge after eight o'clock. Each 'proctor,' as he is called, is accompanied by two 'bullers' who are usually husky youths chosen for their strength and speed from the town. When a luckless 'undergrad' is caught without his 'rag and square' the 'bullers' bring him before the 'proctor' who takes his name and college. The culprit is then asked to appear the following morning before the proctorial body and is usually fined for his forgetfulness.

"Traditions form the backbone of collegiate life and to question seemingly worn out traditions is to commit an unpardonable sin."

## KENYON TO HAVE GOLF, TRACK, AND TENNIS

Baseball Definitely Dropped From Spring Program

With the coming of warm weather comes also an interest in spring sports. The campus that has been practically deserted during the winter months is once more alive with students with ball gloves, bats, and mashies. In other words the old spring fever with all its characteristic symptoms is here.

Calls have been issued by the coaches for early practices in the various activities. Track, tennis, and golf will be the main attractions from now until June with baseball left only for intramural competition. In other parts of the paper the schedules for the teams may be found.

Track, although there are to be no meets at Gambier, will draw the interest of a larger number of students. Coach Kutler predicts that the team turned out this year will be one of the most successful of the past few seasons because of the larger number of good men trying for positions. Phil Fox, last season's one man track team, will be sadly missed, but it is said that there are several good men who will attempt to fill his shoes. Bell, sturdy distance runner, is expected to win points and plenty of them, and Clarke, Hiller, and MacNamee will be given chances to come through first for Kenyon.

The real strength of the squad will not be known until after the first meet, a practice one, at Oberlin, but with the attention that will be given to track this year, a good team is expected.

Although the tennis courts are not in shape as yet, racket wielders have been working out in Rosse Hall. With both Wooster and Oberlin carded for two matches, Kenyon faces a real tough schedule, and should the net men win half their matches, it will surprise even the most optimistic Kenyon tennis fans. Gray, D. Johnson, and Swanson will form the nucleus, and J. Johnson, Wood, and Hatcher will probably win places before the season is far gone.

Headed by Cadle and Eickman the golf team is hoped to rate high in the Ohio Conference this season. All of Kenyon's home matches are to be played over the tough Mt. Vernon Country Club course. Although the schedule has not been announced, it is presumed that Kenyon will have four or five home-and-home series with Ohio colleges and will send four men to the Ohio Intercollegiate Tournament later in the school year. A tournament, similar to the one to decide the tennis team, will be held to determine the foursome to take part in the Kenyon matches.

Spring football has been limited to a week's practice in Rosse Hall. In previous years a great deal of time has been spent in blocking and tackling drills, but the sessions during this one week were devoted to plays and signals to be used next fall.

According to Athletic Director Kutler it has been definitely decided that Kenyon is to have no representative on the diamond this year. A lack of funds is given as the reason. However, Stock and Sammon are each picking teams and plan to play at least one game a week during the months of May and June.

## CAGE SQUAD TO PLAY TEN GAMES NEXT YEAR

1932-1933 Basketball Schedule Is Arranged

At a meeting of the Ohio Conference Managers' association in Columbus on March seventh ten games were scheduled for the 1932-1933 Kenyon basketball team. The schedule is:

Dec. 13—Capital at Columbus.  
Jan. 11—At Ashland.  
Jan. 14—Muskingum at New Concord.  
Jan. 21—Otterbein at Westerville.  
Jan. 27—Kent State.  
Jan. 28—At Wooster.  
Feb. 11—Ashland.  
Feb. 18—Kent State at Kent.  
Feb. 21—Capital.  
March 1—Otterbein.

This is a somewhat shorter schedule than the too strenuous one of the past season. However, Coach Evans is planning to arrange three or four more games to be played sometime before the middle of January.

## CAGE TEAM LOSES LAST THREE GAMES

Capital, Ashland and Otterbein Are Victors

The Purple quintet lost its last three games of the season, one each to Capital, Ashland, and Otterbein, and thus finished the conference basketball year with three wins and twelve losses.

The Capital outfit pulled a surprise by winning its first tilt of the year, 37-30, when it entertained the Kenyon team at Columbus. The visitors at one time held a ten point lead on the locals, but Schiff and Brenning scored heavily enough to give their team an 8 point lead at half time. From then until the finish Capital managed to keep this same number of points ahead due mainly to the work of Brenning, the Columbus center. The winning team's two high scorers, Brenning and Schiff, made 32 points between them, while Stock lead Kenyon's attack with 10.

Kenyon lost its best played game of the season here on March 2 to Ashland, 33-32. The locals passed, shot, and fought as they had not done this year, but it was not quite enough to defeat a fortunate Ashland squad. Thrill after thrill brought the rooters to their feet throughout the contest, and as an exciting a finish as one could wish for nearly had the crowd crazy.

Until Berry started dropping them in the Purple was 10 points ahead, but after that it was a fight to a finish with the visitors getting the decision. Berry, incidentally, was high man for the winners with 10 points, just a marker behind Stock.

Showing a complete reversal of form, Kenyon lost a ragged contest to Otterbein at Westerville, March 8. The Purple looked worse than it had any time this year, and was even more out-classed than in its game with Mt. Union. Otterbein lead at the half, 25-9, and at the end, 51-18.

This game marked the passing from the basketball court of Stock, one of the most brilliant athletes to play at Kenyon for some years. To replace him next season will be one of the chief worries of the coaching staff.

## KENYON AGAIN DEFEATS WEAK KENT STATE TEAM

On February 27, at Kent, Kenyon's basketball team won its third game of the season and its second from Kent State. The final score was: Kenyon 30, Kent State 26.

The visitors were behind at the half, 13-15, but jumped into the lead immediately after the opening of the second period. The local team was a much improved outfit over that which played at Gambier earlier in the season and lost 19-43, but it was not quite strong enough to defeat even the listless Purple team.

The game was hard fought throughout, but the large floor and close guarding kept the score down. Stock and Clarke were the high scorers with 11 and 8 points. Losito and Gintert scored high for Kent State, each making 7 points.

## DEKES WIN INTRAMURAL BASKETBALL TITLE

West Wing broke South Leonard's long string of victories in basketball by defeating that division's team in the finals of the Intramural Basketball Tournament, 16-14. The losers were ahead until the closing minutes of play, but some clever work by Daly put the game on ice for his team. Daly scored the winning basket in the last thirty seconds of the tilt. Neidig was the high scorer with seven points.

Delta Kappa Epsilon reached the finals by defeating Alpha Delta Phi, 14-8, and Delta Tau Delta, 20-11. The squad consisted of Kayser, Neidig, Daly, Hardy, Hudson, and Park.

Beta Theta Pi defeated Bexley, 33-20, and Middle Kenyon, 24-16, before its three-year winning streak was broken in the finals. Mason, Tritsch, Ewan, Mueller, McBee, Bead, Parkin, and Hammond made up the South Leonard outfit.

## MAUVE FINISHES SEASON WITH ONLY THREE WINS

Kenyon finished well towards the bottom in the past Ohio Conference basketball race which was won by Mt. Union without the loss of a game. Out of the fifteen contests the Purple squad was victorious in three. However, seven of the games lost were by margins of less than ten points. Kenyon scored only 411 points for an average of 27.3 per game, while her opponents were making 526 points for a game average of 35.2.

"Steve" Clarke was the high point man of the squad for the conference season with 104 markers, leading "Dude" Stock by 5 points. The averages for the two were 6.9 and 6.6 points per game.

Although the record is far from enviable, it is better from the win and loss standpoint than that of last year, but the margin between the average scores was greater this season.

## DR. RIGG TO PRESIDE OVER PSYCHOLOGISTS

Dr. Melvin G. Rigg, president of the Psychology Section of the Ohio College Association, will go to Cleveland to preside over a meeting of that section on April 8. The association consists of professors of Psychology from all Ohio colleges.

As president of this body of men, the Kenyon professor will have full charge of the program. Moving pictures are to be shown of experiments conducted by the Psychology Department at Ohio State. According to Dr. Rigg motion pictures are destined to play an important part in the classwork of the future. Instead of performing tedious experiments, students will see the same thing done by others through the medium of the screen.

## SIGMA PI FRATERNITY HAS BANQUET AND DANCE

Lambda Chapter of Sigma Pi held a Founders' Day banquet in Peirce Hall, February 26. Once a year on this day all the chapters of the fraternity meet with as many of their alumni as possible. This serves

as an annual roll call. Although only six of the Kenyon chapter's alumni were back to attend the banquet, telegrams or letters were received from all absent ones.

On March 5 Sigma Pi gave a formal dance with Gamma Chapter of Ohio State as guests in the Elks Hall at Mt. Vernon. Among the thirty couples attending were: Dr. and Mrs. Bumer, Dr. and Mrs. Rutenber, and several alumni. So successful was the affair that the chapter is planning now to have a similar dance, April 23, at the Mt. Vernon Country Club.
